EXPERT ENVIRONMENTAL SOLUTIONS

Environmental issues are too important to trust to just any company. At Chemtron, we have the comprehensive services, experienced professionals and advanced technology to assist in solving all your environmental needs.

• Hazardous Waste Processing

- We offer an array of services including: Fuels Blending, Incineration, Recycling, Treatment, Transportation and more
- Ability to analyze, accept and process a broad array of waste types
- Over 20 years of experience in developing compliant, cost-effective waste management programs
- Proficient in handling "the tough stuff" – from contaminated soils to air and water reactive wastes to explosives
- Over 540 permitted waste codes, Part B permitted facility

• Non-Hazardous Waste Processing/ Consumer Commodity Management

Our turnkey capabilities help reduce costs, insure regulatory compliance and minimize the liabilities associated with handling documentation and disposal. Services include:

- Solidification
- Shredding & Destruction
- Thermal Destruction
- Comprehensive "Returned Goods" Program
- Recycling

• Lab Pack Services

Chemtron offers a value-oriented, full service, state-of-the-art program specializing in turnkey lab pack services. From waste inventory and packing to transportation and processing, "we do it all."

• Field Services

Our Field Service Technicians are trained to work under the most difficult circumstances and are available to meet your schedule. We offer complete services from preparing a Health & Safety Plan to industrial cleaning, demolition, and total residual waste management.

• 24-Hour Emergency Response Services

- We will respond to your environmental needs any day—any time.

• Analytical Services

- Our Environmental Analysis uses both EPA and NIOSH analytical methods.
- All services are performed in strict compliance, meeting and exceeding all safety and regulatory guidelines.

• Transportation

We maintain a comprehensive transportation fleet to get your waste where it needs to go.

• Compliance Services

Chemtron will provide written regulatory plans, regulatory reporting, all training and permitting/renewal assistance related to your RCRA, DOT and OSHA compliance needs.
